FRENCH EXPECT FOE REFUSAL TO ACCEPT TERMS

Commissions Ordered to
Rush Reports For Allied
Reply.

CONFERENCE WILL CLOSE
PARLEYS WITH ENVOYS

Further Delays, It Is Feared
Will Favor
Germans.

(Associated Press Telegram)
Paris, June 7.—Virtually all the important commissions connected with the peace conference were in session. The activity was due to the directions issued yesterday by the conference leaders that the work of the body should be speeded up as far as possible.

The council of four met this morning and continued its consideration of the German counter-proposals. The commissions which held sessions include those on ports and waterways, responsibilities, Belgium and Alsace-Lorraine.

Paris, June 7.—The American delegation to the peace conference apparently is firm in its decision not to authorize the publication of the German peace treaty until it is signed and not even to acknowledge its official text in its present form to the United States senate.

(Associated Press Telegram)
There is every evidence that the leading figures of the peace conference in Paris are endeavoring to hasten the conclusion of the allied reply to Germany's counter-proposals to the terms of peace. According to given positive instructions have been given by the council of four to all commissions stationed on the spot to complete their reports by Monday. If this order is carried out it is probable the reply will be framed early in the week and will be immediately presented to the allied delegation.

From reports coming from Paris it seems that there is growing a sentiment among the council of four that alterations must be made in the treaty, but in what direction the terms will be modified is not yet indicated. Premier Lloyd George is attending meetings of the French commission studying the reparations phase of the treaty.

Count von Brockdorff-Rantzau, head of the German peace mission, left Versailles last night for Germany. It is reported from Paris that he is expected to return Sunday. French official circles are said to expect the Germans to refuse to sign the terms and as it is pointed out that a delay would favor the Germans, there is necessity for haste in bringing exchanges between the allies and the enemy to a close.

A more hopeful sentiment is said to be apparent in Berlin.

The Italian claims to territory on the eastern shore of the Adriatic also are opening some uneasiness in peace circles. The Italian press is insisting that by June 18 and Premier Orlando is demanding that an settlement be reached by that time. Dispatches from Paris indicate that the deadlock over the situation regarding Fiume and the Dalmatian coast is still the source of concern and that efforts to arrive at an agreement have been futile. Admiral Koi chak's forces operating in European Russia are, it is admitted, checked by the Bolsheviks, and it seems probable that there will be, to say the least, quite a serious delay in carrying the campaign to a successful conclusion. Winston Churchill, British war secretary, declared yesterday "that no agreement should be made to encourage extravagant hopes regarding operations in Russia."

Magyar Bolshevik forces continue to advance against the Czech troops between Budapest and Vienna. They are reported to have crossed the Danube at Gram and to be menacing Pressburg. French generals are said to be in command of the Czech army there.

Doc Dernberg Says Even If
Allies Occupy Germany,
People Will Not Be En-
slaved.

(Associated Press Telegram)
London, June 7.—Germany's inability to meet the financial demands of the peace terms and the inability of the allies to make Germany pay, are the two main points stressed by Dr. Dernberg, the German minister of finance, in an interview telegraphed by the Daily Mail's Berlin correspondent. Dr. Dernberg declared, "that no agreement should be made to encourage extravagant hopes regarding operations in Russia."

WAR INSPIRES U. S. PRINCESS TO WRITE

Princess Cantacuzene, Countess Speransky.

Princess Cantacuzene is one of the new literary lights whose flame was kindled by the fire of war. She has made a place for herself by her thoroughly well done "Revolutionary Days," which is a record of the adventures of an American princess and her husband, who commanded a brigade of the Imperial guard in Russia during the bloody years from 1914 to 1917. The princess is well known in Chicago. Before her marriage she was Julia Dent Grant, a granddaughter of General Ulysses S. Grant, and a niece of Mrs. Potter Palmer.

FRENCH SUPPORT RHINE REPUBLIC

Army Officer Made Mid-
night Call at U. S. Head-
quarters at Coblenz Ask-
ing Co-operation.

Coblenz, Thursday, June 5.—The Rhine republic movement has made its headway in the American area of occupation notwithstanding reports to the contrary. The British officers in the most important that the interview General Liggett and that General Mangin, the French commander, desired through the colonel to request American co-operation. The French officer said 50 or 60 German delegates were ready to come to Coblenz and hold a meeting, provided the Americans granted a permit and it was planned to declare a republic May 24.

The American authorities took the stand that the movement was a purely political one and that to permit any such meeting would be exceeding the authority of the army command. On June 1 the report was sent out from Mayence that the republic had been declared at Weisbaden with Dr. Dorter at its head.

MAN KILLED BY BOMB WHICH WRECKED PALMER HOME IDENTIFIED

View of front of Attorney General A. Mitchell Palmer's home, Washington, showing ruin wrought by bomb which exploded before front steps.

It is believed that the man blown to atoms by the bomb which partially wrecked the home of Attorney General A. Mitchell Palmer has been identified by authorities. He is believed to be the man who carried the bomb to the house. It is thought he tripped over a low barrier on the lawn and fell, the bomb exploding on the lawn. His identity will be used to aid officials in running down his accomplices in the plot. Neither Palmer nor Mrs. Palmer were at home when the bomb exploded.

BIG STRIKE OF OPERATORS WILL BE CALLED SOON

President of Union Declares
He Will Order Walkout

Pacific Coast Leader Gets
Order to Quit Next
Wednesday.

(Associated Press Telegram)
Washington, June 7.—President S. J. Koenekamp, of the Commercial Telegraphers Union of America, who today is en route to Chicago announced before his departure last night that he would call a nationwide strike of commercial telegraphers upon his arrival in Chicago late today. The strike is proposed in support of the Western Union Telegraph company's employees in the southern states who went on strike Thursday night.

Until he reaches Chicago, Mr. Koenekamp stated, it would not be decided whether the spread of the strike would be confined to the Western Union (include the Postal Telegraph and Cable company). He also said the date of the proposed strike also had not been determined. Western Union officials claim that the 40,000 employees of the company eligible to join the telegraphers union only 710 were members and express belief that a strike would not seriously impair the service.

Postoffice department officials are not concerned in the threatened walkout as the order of Postmaster General E. A. Tamm in returning operating control of the company to its former owners, puts the burden of combating the strike on the companies.

GETS STRIKE ORDER.

(Associated Press Telegram)
San Francisco, June 7.—A strike of Commercial Telegraphers who are members of the union throughout Pacific coast states is to be called June 11 unless demands made upon employers are complied with, according to a message received early today by Patrick O'Connor, president of the local organization of the Commercial Telegraphers Union of America.

The telegram was signed by L. J. Marshall of Los Angeles, first vice president of the organization.

SITUATION UNCHANGED.

Atlanta, Ga., June 7.—There were no developments early today in the situation of the strike of operators in the southeastern district employed by the Western Union Telegraph company and chief interest in the controversy centered in Washington last night in an announcement by S. J. Koenekamp, president of the national organization of union men, that he would call a nationwide strike of members of the union at a date to be decided in Chicago late today.

Both leaders of the strikers and officials of the company continued to issue contradictory statements concerning the number of men who quit work Thursday night and yesterday.

H. C. Worthen, general manager of the southern division said the company was carrying on an uninterrupted service and that the latest survey of his district showed only a total of 238 employees on strike.

SENATE'S DEMAND FOR FULL
TEXT FORWARDED TO PARIS

Senator Sherman May Pre-
cipitate Further Debate
On League.

(Associated Press Telegram)
Washington, June 7.—Preliminary preparations were being made today for the investigation to be conducted by the senate foreign relations committee into statements that copies of the unpublished treaty with Germany are in private hands in this country. The inquiry authorized by a senate resolution adopted yesterday, may take a wide scope. It is not expected that definite plans will be laid, however, until the committee meets to take up the subject Monday.

Meantime the state department was forwarding to President Wilson and Secretary Lansing at Paris another resolution adopted by the senate yesterday asking for the complete text of the treaty. Officials here will not make any prediction whether the request will be complied with. Both the resolution although they had aroused a heated debate were adopted without a roll call. The action ended temporarily the discussion which has covered every feature of the treaty controversy since the extra session convened, but it generally was expected that other speeches on the subject would be heard next week from those in the senate who are opposed to the treaty. There still remains in the senate a paper a resolution by Senator Sherman, Republican of Illinois, declaring that the sense of the senate that the covenant of the League of Nations should be submitted separately from the peace treaty for ratification. With the other two resolutions out of the way, Senator Sherman may call up his measure and thus provide the vehicle for more debate on the subject.

NEWARK WOMEN

You who have never failed in the tasks imposed by your government, you women who made success of the great measures to conserve food and fuel, you who have kept alive the holy fires of patriotic zeal and in militant array have put behind the men at the front the driving force of a Nation awakened, to you this call is made.

Another Great War Service

Every other undertaking has gone forward to success, largely because of your persistent patriotism. Now there remains, that Ohio and this community may have a hundred per cent record, the meeting of our full quota in the sale of War Savings Stamps, those baby bonds of our Government that enrich the owner and solve the reconstruction financial troubles.

This month of June has been set apart for your drive. In conjunction with the general organization, you are asked to again make your might felt, once more to show the stern qualities of fighting for freedom.

You Never Have Failed

Now, when the appeal is made to you as a great duty of the war period, another national enterprise in which you will show your patriotism, there is no thought of failure. The women of Ohio have done, and they will do, the tasks set for them by their government.

Unlike most of the others, this task leaves a permanent benefit to the community, and it reaches out in the homes of the people and brings to them a message of saving, a message of provision for the future, a message of assurance made sure, of independence in life, of certainty of success, for the person

Who Saves Succeeds

More than that, it is the means of keeping the solemn pledged word of this community that it would stand by the boys who went abroad to win Liberty's battle until they came home triumphant.

To their wounded we pledged succor, to their dependents we promised freedom from want, to them we guaranteed care and their return to those they love.

You are called upon in the days when we all rejoice over the return of the men to remember those left behind, those who are paying for the victory, those who gave the best they had—all they had—that America might triumph and womanhood be respected.

War Savings Stamps Redeem That Pledge

You will answer that call—answer it fully as well as you have answered the others. You will sell War Savings Stamps. You will buy War Savings Stamps. You will create that healthy sentiment that makes every man partake in his government with his full share.

The Newark W. S. S. drive for next week—June 12, 13, 14. The campaign in the townships will soon follow.

The service of many Newark women will be required for a few hours on June 12, 13, 14. Send word to the county chairman (Auto 7289) or to your ward leader: First ward, Mrs. J. W. Weakley; Second ward, Mrs. J. A. Mitchell; Third ward, Miss Anna Stare; Fourth ward, Mrs. T. J. Appleyard, Jr.; Fifth ward, Mrs. Fred S. Wright; Sixth ward, Mrs. Walter Bainbridge. Tell one of these women that you are ready to help to make this patriotic job a success. Let's show the men what Newark women as a group can do. Talk to your friends about W. S. S. and get them ready to sign pledge cards next week. Licking County will not rank 100% in war work until the remainder of this year's stamp quota (\$575,000) is subscribed.

Licking County Chairman Woman's Division Ohio War Savings Committee.

HOME MAKING.

Some years ago the graduation exercises of all women's schools had a literary flavor exclusively. The white gowned graduates were lovely pictures of refinement and culture. But most of them had been taught practically nothing about the art which has been woman's chief occupation since earliest history—that of making a home.

In those days women looked down with contempt upon the arts of housewifery. These were things they could pick up any old time. It was soon enough to think of them after they got married. Anybody could learn to cook and run the house. And besides, servants were abundant and cheap. If the girls married a successful man, they could turn over all home tasks to a maid. So why study them?

Today many schools are devoted exclusively to the home arts. Domestic science courses are found in high and grammar schools all over the country. They will be about as universal as arithmetic before many years.

The world is realizing better that it requires training to run a successful home. It is not a task that can be looked upon with contempt. To get the most out of a given appropriation for food, to prepare it so it stimulates the appetite and preserves nutrition, is an achievement of which any woman has a right to be proud. Successfully performed it makes the difference between an efficient home, one that sends out a strong and resourceful man and promising and capable children, and the home of failure and despair.

The schools should give more rather than less time to domestic arts. Here in Newark no girl should be considered fitted for life, until she is well qualified to conduct a home and rear children according to the best standards of health and efficiency.

SOCIAL DEMORALIZATION.

As people go about their work in the prosperity and comfort of an American town, it is hard to realize the demoralization prevailing over most of the world.

Take conditions in Vienna, Austria. There they have had practically no coal for heating since early last fall. European climate is a little warmer than American for a given latitude, owing to the Gulf stream. But Vienna is about as far north as Quebec and Winnipeg on the continent. They must have done some shivering there.

Then take the unemployment. It is said there are nearly 500,000 idle men in Berlin, all drawing a government unemployment allowance amounting to 15 marks a day. A mark before the war equaled 25c in American money. As people can earn but little more than that by working, vast numbers of them

refuse to work and prefer to accept the unemployment allowance. Then if that is withdrawn they immediately proceed to riot.

In Russia conditions are worse. In England, France and Italy, while not so bad, there is social unrest and many idle people. Europe is suffering from unstraining nerves. Famine and nakedness hold sway over vast territories. The people of the Teutonic empires are like a man recovering from an orgy of drunkenness and debiliating tremors. They are not capable of sane thought and hardly of work. One can pity them while remembering that they brought all this suffering on themselves by atrocious crimes.

Here in the peaceful life of active industry of Newark one should feel thankful to God that this nation has escaped these horrors. It is a lesson of what terrible suffering results when people become indifferent to justice, and strive for their own aggrandizement.

NO JEALOUSIES.

(Cleveland Plain Dealer.)

When Harry Hawker darted from Newfoundland in his hazardous attempt to reach Ireland he had no more ardent well-wishers than Americans whose own representatives had already reached the Azores. And now that the Americans have succeeded in crossing the sea by plane, no nation is more pleased than the English whose own representative failed.

On Sunday London staged an enthusiastic reception for the crews of the three seaplanes which attempted the trans-Atlantic flight. The commander of the one plane which succeeded was the particular object of attention. And a conspicuous member of the party which staged the reception was Harry Hawker. It was an international gathering devoid of jealousies though one nation had succeeded and the other failed.

The crossing of the Atlantic by plane was a world achievement in which all nations take pride, for all recognize its significance. There could be no international jealousies in such a case, in spite of the keeness of the rivalry. And if Hawker tries the direct flight again, as he says he will, every real American will wish him well in it.

WEDDED AT GRAVE'S EDGE

Remarkable Ceremony by Which Philadelphia Jews Hoped to Stop Ravages of Influenza.

With the hope of protecting the orthodox Russian Jews in Philadelphia from further ravages of the influenza epidemic two Hebrews were married at the first line of graves in the Jewish cemetery a few months ago. More than 1,200 Russian Jews watched the rabbi perform the wedding ceremony.

When the couple were pronounced man and wife, the orthodox among the spectators filed solemnly past the couple and made them presents of money in sums ranging from ten cents to a hundred dollars, according to the means and circumstances of the donor, until more than \$1,000 had been given.

After the last offering the bride and bridegroom walked to the greensward farther from the graves, where a wedding feast was quickly spread from the two truckloads of food that others of the faithful had provided.

The marriage in a cemetery, with the idea of warding off the ravages of an epidemic, is a revival of a custom that has prevailed for hundreds of years among the Jews in the heart of Russia. When Russia was swept by cholera several centuries ago Jews died by the hundreds. Panic seized them, and they called a council of elders and rabbis, who decided that the attention of God should be called to the affliction of their fellows if the most humble man and woman among them should join in marriage in the presence of the dead.

So they asked a young man and a woman, who were unknown to each other and who were without wealth, to marry in order to save their fellows from the cholera scourge. The young people agreed, and the ceremony was performed. According to the tradition, the ravages of the cholera subsided within three days.—Youth's Companion.

NEWARK WOMEN GETTING READY FOR W. S. S. DRIVE

Newark women are ambitious to make a success of their War Savings Stamp drive on June 12-14. The men have given them a clear field and they are now looking on to see the result. If the women's campaign here in Newark next week succeeds as it should, it will encourage the women to proceed with the drive in the country districts and perhaps give the women of Licking county the honor of finishing the last drive of the war.

Licking county, "cover the top" in every financial undertaking so far, will not rank 100 per cent until the 1919 quota of War Savings Stamps is subscribed. This county still has \$575,000 to sell.

Mrs. Ernest T. Johnson, county chairman of the Women's Division, and the six ward chairmen, Mrs. J. W. Weekley, Mrs. J. A. Mitchell, Alice Ann State, Mrs. T. J. Appleby, Jr., Mrs. Fred S. Wright and Mrs. Walter Bainbridge, are busy now perfecting the organization for next week's house-to-house canvass. They have already secured many helpers, but need more in order that the work may be done quickly and efficiently. Women who are willing to help in this patriotic work will communicate with Mrs. Johnson, or one of the ward leaders above named.

There is no doubt that the women will make a great success of their drive and every woman in town should take pride in seeing the campaign meet with overwhelming success. All that is required of the workers is a few hours' effort on June 12, 13, 14, W. S. S. are the easiest things in the world to sell because they are the world's best investment and everybody knows it. Women of Newark are urged to get in line, lend a hand and help to make the women's drive a huge success.

The Ohio county that makes the largest percentage of gain in W. S. S. sales in June, July and August will receive a \$10,000 granite memorial shaft. Licking county should win this memorial. Buy W. S. S.

Ministers are requested to bring the Women's campaign to the attention of their congregations tomorrow. The dates are June 12, 13, 14.

Early next week a number of action will be made to the court house park bulletin boards where soldiers' and sailors' names are posted. Those

who have Bring 'Em back application blanks will please fill them out and send them to the committee promptly. Buy 100 W. S. S. and form a Bring 'Em Back club for your soldier or sailor friend or relative.

The sale of \$575,000 worth of W. S. S. will put Licking county "over" and will give this county a perfect record in war work.

Mrs. J. W. Weekley, First Ward chairman, desires to meet East Newark women at the U. S. church Monday evening at 8:30. The indications are that East Newark will give a hearty response to the W. S. S. call.

Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

OPHTHERIA LEFT HER WITH CATARRH OF THE THROAT

After Years of Suffering, This Lady Found Relief in PERUNA, the Great Catarrh Remedy.

While there is nothing unusual in the experience of Miss Louise Brucker of 1224 East Twelfth St., East Cleveland, Cal., her sufferings are not only but to be an inspiration to every sufferer from catarrh.

"This is what she says: 'Ophthalmia left me with catarrh of the throat. After years of suffering and disappointment, I gave up hope until I heard of PERUNA. I tried it. I followed instructions and have had no catarrh since. Now we always keep PERUNA and MANALIN in the house.'

It is not necessary for anyone to go on year after year suffering with catarrh in any form. PERUNA is just as effective for catarrh of the stomach, bowels, liver and other organs as it is for coughs, colds and catarrh of the nose and throat. It is a positive, reliable, and long-acting remedy that PERUNA insures a rich supply of pure blood and enough ment being carried to the mucous lining everywhere. By keeping the mucous membranes healthy, the body is better able to resist disease and ward off such troubles as the Grip and Croup. PERUNA is of extreme value in rebuilding the body to normal health and strength.

Transparent Mystery.

An Englishman returned from India bringing a native boy with him as a servant. The boy knew nothing about ice, and one winter morning he came running to his master with a large piece from a bucket in the yard.

"Look, master," he said, "what a large piece of glass I have found."

His employer said it looked very wet and jokingly told him to put it on the back of the stove to dry. He did so, and presently came running back with the partly melted ice in his hand.

"Master, it's the queerest glass I ever saw. The more I dry it the wetter it gets."—Boston Transcript.

Silverite a New Metal.

A new development in the alloying of aluminum with other metals has just been accomplished by the production of "silverite." This metal is something entirely new and is composed of a mixture of aluminum and copper, zinc and steel in varying proportions, according to requirements. The alloying of steel with aluminum is somewhat startling and at first thought seems to be impossible, yet it is successful.

PALS IN FRANCE MEET AT LAKE

French Sergeant Who Carried Fruit to Wounded Yank Meets Him in Ohio.

"Bon soir," said an American soldier in surprise at Buckeye Lake last night when he accidentally met a French soldier with whom he had been pals while in France. "Bon jour," replied the Frenchman, and they clasped hands in true American style.

An unusual incident befell J. P. Simons of Hebron, who has been here recently discharged from the army after being severely wounded with Company B of the 103rd Infantry. Although thousands of miles separated their homes and when they parted they never expected to meet, Private Simons last night accidentally met a French soldier who had befriended him while in a hospital in France, and with whom he had become good friends.

Private Simons knew him only as Sergeant Louie, and he lived in the town of Godel, France, where Simons was in base hospital No. 23, for several months. The chance meeting, young Frenchman brought oranges and other goodies to the hospital and they both became fast friends.

Sergeant Louie at the close of the war was given a five months furlough to come to the states to visit relatives and friends in Columbus. The Columbus family had come from his home town in France about seven years ago. They were entertaining the Frenchman and took him to Buckeye Lake last night. As they were walking up the tow path, Simons passed them. He noted the uniform and then taking a closer look was started to find a former friend.

The two French phrases of greeting followed and the men spent the evening together. Sergeant Louie can speak no English, and wears the croix de guerre and legion of honor. He was made an honor guest at the dining pavilion at the lake and was shown many little courtesies.

PARSLEY POINTED A MORAL

Youngster Quick to See the Point Which His Father Was Endeavoring to Make.

In an Indiana town where crookedness in city affairs has been reigning for years, a lucrative position was offered to a lawyer. It was not because the salary itself was so large, but the possibilities the position offered were many. But still a string was attached and the lawyer knew it. So he turned down the job.

His high-school son was provoked because his father had not accepted. He grumbled about it in subtle little ways for several days and then one day his father came to school after the boy to accompany him to a friend's farm. Once there, he showed the delighted youngster the farm, last visiting the pen in which the hogs were being fed for the market.

The boy eyed them a few minutes and then asked, "What is that they're cutting so ravenously?"

The farmer answered: "Why, that's parsley. It's the best hog fattener I know of. We just turn them into a patch of parsley and they do the rest themselves. It's too good picking for them to resist. When I decide that a pig is almost ready for the market I just turn him into the parsley patch, and soon he's just in the right condition to go to the slaughtering house."

"It's too bad they don't know what's coming to them so that they stay away from the parsley patch," laughed the boy. "I'm sure I would if I were to turn hog."

His father merely looked at him for a minute and then he said: "Parsley always has looked like graft to me—very inviting, easy to get, and plenty of it while it lasts, and then at the end inevitably the slaughtering pen." This time the boy understood.—Indianapolis News.

Interior view of the Orchestral Section

This Is An Interior View of the Orchestral Section of The CHENEY PHONOGRAPH

THE orchestral section of the Cheney is one of the important and exclusive features which have given this instrument acknowledged supremacy in sweetness and purity of tone.

Note that it is made from seasoned wood, which adds a mellow quality to the tones as they pass through.

Yet more important, note that the old megaphone principle has been discarded for a more scientific method of tone amplification through a series of chambers, graduated in size. These chambers will preserve a perfect balance in reproducing band, orchestra or other ensemble selections. Each voice or instrument is readily recognized—promptly identified.

This is only one of many improvements that have placed the Cheney in a class apart. Call at our store and let us show you the tone arm, the acoustical throat, the reproducer, the resonator. Best of all, let us show you the artistic Cheney cabinets in period design. They fittingly enshrine the superior Cheney tonal system.

Chicago Grain Review.

Chicago, June 7.—Fresh declines in the corn market today went hand in hand with continued liquidation by holders. Opening prices, which ranged from 3 1/2c to 1 1/4c lower with July 1.65 to 1.68 1/2 and Sept. 1.58 1/2 to 1.59, were followed by moderate additional sell-offs.

Oats dropped with corn. After opening 1 1/2c to 3/4c off including July at 67 1/4c to 67 3/8c, the market developed further weak.

Provisions reflected the bearish course of grain. Higher quotations on hogs failed as a counter balance.

Wall Street.

New York, June 7.—The stock market gave another good demonstration of rising strength today. Evening up with short contracts over the week end was a factor but the list was quite responsive to the favorable summary of business conditions reported by the news media agencies. In addition, confidence that the treasury would soon be out of the way and a current large expansion in gross earnings of corporations, contributing to the activities in commercial lines, influenced spirited bidding for various stocks. Sales approximated 700,000 shares. The closing was strong.

Continued buying of recent favorites was resumed in the stock market today, the demand being mostly for General Motors and the shipping, oil and food shares, which showed advances ranging from 1 to 2 points with United Fruit making an advance of 4 points. A few stocks weakened under continuation of yesterday's realizing movement. American Woollen receding 3 points, but the main trend was definitely upward. Railroad shares were quieter and copper and U. S. Steel moved quite narrowly.

Chicago Produce.

Chicago, June 7.—Butter—Lower. Creamery 46 1/2c.

Eggs—Unsettled; receipts 27,281 cases. Firsts 39 1/2c; ordinary firsts 37 1/2c; at market, cases included, 39 1/2c; storage packed firsts 41 1/2c; extras 42 1/2c.

Poultry—Active; unchanged.

RAISED STATUS OF LABORER

Joseph Arch Will Long Be Remembered as Champion of English Farm Workers.

From plowboy to member of parliament was the remarkable rise of Joseph Arch, who recently died at the age of 92. He was a unique figure in English parliamentary life, being in 1885 the sole workingman member of the house of commons. At that time there was no kind of labor party in existence. Mr. Arch achieved fame as the champion of the English farm laborer when the tiller of the soil reared his family on a wage of \$2 a week, subsisted chiefly on barley bread and hardly knew the taste of tea or sugar. In 1872 he enrolled 200 farm workers in an organization that came to be known as the National Agricultural Laborers' union, whose leaders the bishop of London wanted to duck in a horse pond. "Admit baptism," Mr. Arch rejoined to the bishop's state, "is not the rule of the Church of England." Mr. Arch is credited with having done more than any other man to improve the condition of England's peasantry. He was popular in parliament. One of his constituents was the prince of Wales, afterward King Edward. He referred to Mr. Arch as "my member." Mr. Arch also was a Primitive Methodist preacher. He was fond of his pipe and an occasional glass of ale.

FOUGHT "REDS" WITH CUSTER

"Devil" Devlin, Veteran of the Plains, Now Sells Apples on Streets of New York.

It is a long jump from selling apples from a little sidewalk stand in West 43d street to pumping a carbine during the height of Custer's last fight, but there's an old man in town who does it daily. If any one comes along to encourage him to make the journey, he is Frank Devlin, a little gray-haired, wrinkled apple man, who sits daily with his stock of apples. Yesterday, writes the New York Correspondent of the Pittsburgh Dispatch, he met a modern warrior wearing the Croix de Guerre who had just returned from overseas. The newly returned veteran listened with respectful attention while the apple man showed him the way to handle a rifle. For years the withered old man was "Devil" Devlin, crack rider of the Fifth United States cavalry, and one of the twenty best horsemen in the United States army. It was "Devil" Devlin who rode from Prescott, Ariz., to Dodge City, Kas., which took a matter of nearly three months, 1,110 miles in the saddle. Devlin was present at Custer's last fight and he declares that the Indian fighter of the plains could tell some things to the heroes of the A. E. F. about hard work and harder fighting, long hours and scanty rations.

One night Marie heard Roger's voice in a woman's room. Shocked she stopped to listen. A man's angry voice was saying, "I've caught you, you dog!"—what are you doing in my wife's room. Roger's low tone reply was interrupted by a woman's sob. Marie ran for Roger's father. "He is in trouble," she panted.

You must see Miss Stewart in the role of Marie, the mysterious beauty from nowhere.

AMUSEMENTS

AUDITORIUM.

"A Midnight Romance."

The star—a woman.
The author—a woman.
The director—a woman.
The financier—a mere man.
And there you have the combination, with odds of three to one in favor of the fair sex, that is responsible for the screen drama of mystery and romance that is being presented at the Auditorium theatre.

The title—"A Midnight Romance."
The star—Anita Stewart, who plays the role of Marie, a maid by day and a mysterious, bewildering Juliet by night.

The author—Marion Orth, the feminine Conan Doyle among screenwriters.
The director—Lois Weber, the woman whose genius has been responsible for several big screen successes, and who knows human nature from the feminine viewpoint.

The financier—Louis B. Mayer, Boston film magnate, who is suggested by the Suffrage Party as a Life Member.

In an unsettled state. The serpent's head darts forth furiously in England, France, Italy—and now in our own beloved native land.

Hence the exceptional timeliness of Select Pictures' Special Attraction, "Bolshevism on Trial," which will come on Monday, Tuesday and Wednesday to the Auditorium theatre. We Americans have lived forever under a system of unlimited freedom of thought of speech and action; so long as these respected the rights of others in the community; we do not have to think twice to realize the necessity of protecting our home from the destructive influence of Bolshevism.

"Daddy Long Legs."
Judy Abbott does not have loving parents, kind friends and a pleasant home like other little girls. She lives in a big orphan asylum where things move by machinery, where children are raised on the "wholesale plan," where the head matron is a tyrant in skirts, the

in tribute to his recognition of, and the realm of motion pictures are the last showings are seen tonight.

"Bolshevism on Trial."
Throughout the entire civilized world, the most important question confronting every nation lies in the menace of Bolshevism. First the committee of union of Russia fell prey to this insidious doctrine, and the result was the disastrous treaty of Brest-Litovsk, which released so many German divisions for the Western front. But Bolshevism accomplished only the complete ruin of Russia, and now that vast country lies prostrate and bleeding, a pitiful victim of fanatic and double dealing criminals.

Regardless of this object lesson so evident to the world, the Bolsheviks are spreading their propaganda everywhere. The true democratization of Germany is impeded by their local offshoot, the Soviet. In Hungary has come over to Bolshevism, and even in the far East we hear of the combing of revolution. Not only in distant lands, however, is Bolshevism making every effort to enter; nor are its insidious advances appearing only in those foreign countries which the great war has left

trustees are exalted and none too in loved, and where the loving interest which children most need for their development and happiness is completely absent.

Judy, whose full name is Jerusha, reached this great desolate home, founded by a man who had made his money from one labor, and who consequently put upon discipline into operation at the asylum, when she was a baby. About the time a rich little girl named Amelia Wyckoff was entering upon a privileged existence Judy lay out into an orphan wrapped in a few rags by some unknown.

The next year the wall was taken to the John Crane Home for Orphans, where she was named from a telephone book. She put down as best she could until the age of 12 when she began to be more or less of a personality about the home.

Something of Judy's strength of character, and her attitude about the asylum is seen on a certain day when the trustees come. They do every "Blue Wednesday" Judy, trying to aid the matron, Mrs. Bennett, a deceitful woman, in having the orphans make a good showing, succeeds in making them appear very much out, and herself

SELECT PICTURES PRESENTS

"BOLSHEVISM ON TRIAL"

IF BOLSHEVISM COMES TO AMERICA IT WILL DO HERE WHAT IT HAS DONE IN RUSSIA AND WHAT IT SEEKS TO DO IN GERMANY.

LIBERTY will be destroyed, because Bolshevism means that one class shall rule all over other classes. PROPERTY will be confiscated without payment to its owners. Your house, your household belongings if you do not own a house, your savings in the bank, your liberty bonds—you will lose all these.

FOOD will be put beyond the reach of all except those who can seize it by brute strength, for Bolshevism takes the farmers' land, eats the food that is in sight, and makes no provision for tomorrow.

LAWS will be annulled and the whole social system thrown into chaos. There will be no courts to adjust the wrongs; no punishment for the wrong-doers.

GOVERNMENT will be transferred from the elected representatives of the people into the hands of committees, or soviets, without any central authority—without legislatures, congress or president.

WOMEN AND CHILDREN will be the property of the state. One of the soviets which set the fashion in Russia, the soviet of Vladimir, has already decreed that all women over 18 must register at a bureau of free love and there hold themselves subject to the will of any man who may order them to follow him.

RELIGION will vanish when respect for law and for women and children vanishes. BOLSHEVISM worships not the GOD of our fathers, but LICENCE.

Standing firmly united under the torch of LIBERTY, American Capital and Labor mutually resolve to break no interference in their common interests by the destructive forces of BOLSHEVISM. Capital, as the MAKER of work, LABOR, as the DOER of work, realize in this epoch making period of reconstruction that the ultimate success of AMERICA'S INDUSTRIAL LIFE is dependent on their unwavering loyalty and unity. BOTH seek co-operation, with thrift and plenty, safety of person, contented homes and the blessed privileges of FREEDOM UNDER THE AMERICAN FLAG.

The hostile TORCH OF BOLSHEVISM must be kept from our shores.

AT AN EXTRA ADDED EXPENSE THE AUDITORIUM MANAGEMENT HAS ARRANGED A 3 DAY SHOWING OF

"BOLSHEVISM ON TRIAL"

— AT THE —

AUDITORIUM THEATRE

3 — DAYS COMMENCING MONDAY NEXT — 3

This feature adapted by THOMAS DIXON, author of "The Birth of a Nation" shows a strong arraignment of the party of Bolshevism.

NOT A PROPAGANDA OR WAR PICTURE. A large and clever cast of players, which include Robert Fraser, Leslie Stowe, Howard Truette, Jim Savary, Dinna Nesbitt, Ethel Wright, Valda Valkyrien, May Hopkins, Chas. Standing Bear, J. C. Hayes, and thousands of extras.

SEE the wonderfully effective and thrilling scenes that were made on the grounds of and in the rural Palatinate Hotel at Palm Beach.

SEE the fight amongst the BOLSHEVISTS, the fight of the EX-PIGULIST, the manner in which the light of LIBERTY is thrown on the heart of BOLSHEVISM and the way it is shown up in its TRUE COLORS.

YOU KNEW THE PLACE OF THE CLOSETS—HOW THE WINDOW CASEMENTS WOULD LOOK, THE WIFE KNEW WHERE THE "CATCH ALL" WOULD BE LOCATED, AND THE CHILDREN KNEW THE BEST CORNER FOR THE PLAYTHINGS. PERHAPS YOU HAD PLANNED ON THE SLEEPING PORCH AND A HUNDRED LITTLE PERSONAL TOUCHES YOU KNEW YOU COULD GIVE WHICH WOULD BRING NEW AND ADDED CONVENIENCES.

EVERY NORMAL PERSON LONGS FOR SUCH A HOME, BUT PROCRASTINATION, THE THIEF OF TIME HAS MADE MANY A "CASTLE OF DREAMS" TOPPLE OVER, AND GREAT WAS THE FALL OF IT. DELAYS HAVE WEAKENED YOUR OWN AMBITION AND CAUSED GRIEF TO THE WIFE AND CHILDREN. NOW IS THE TIME TO JUMP OFF THE FENCE AND PUSH THOSE BUILDING PLANS TO THE LIMIT. THE EUROPEAN MARKET WILL OPEN SOON FOR BUILDING MATERIAL AND YOU MAY FIND THAT THE BEST OPPORTUNITY HAS PASSED YOU BY.

KNOW AND LOVED STEVENSON
Old Resident of Tahiti Proud of His
Association With the Famous
Romanticist.

In the town of Papeete, on the is-
land of Tahiti, lives an old man named
Donat, a former comrade of Robert
Louis Stevenson when the famous ro-
manticist was journeying through the
South Sea Islands. Donat loves to
tell of the days when the writer used
to rest in his home and listen to the
weird ghost tales which the old man
told and which Stevenson wrote into
some of his stories.

Their friendship began when the
writer rented a house to rest in after
a trip through the Marquesas Is-
lands. On Donat's grounds were the
only vegetable gardens in the is-
land, the formation of which was
mostly coral, sand and rubble. Each
morning the old man would send to
Stevenson's house a great basket of
fresh vegetables, fruit and coconuts,
and later when the author came to
thank Donat for the gift the two would
sit in the shade and talk for hours.

Nothing delights Donat more than
to talk of his gentle friend and the
days when they were together. He
gives an intimate picture of Steven-
son's simple life on the island, of his
rambles on the beach among the coco-
nut groves, of his friendly associations
with the natives. When Stevenson left
the island he invited Donat aboard his
ship for dinner and presented him a
valuable ring as a souvenir of their
friendship. "He was a good man, a
great gentleman," is Donat's tribute.

Mrs. Frank Vanatta and daughter,
Miss Fernie of Mill Valley, a suburb of
San Francisco, are the guests of Mr.
and Mrs. Ed Vanatta and Mr. and Mrs.
A. H. Bradley, who are relatives.

IN BONDS OF COMRADESHIP

Strong Unity Inevitable Among Those
Who Battle the Savage Hun
Side by Side.

Two men were hobbling along the
strand, London, the other day. Both
depended upon stout ash sticks to help
them on their way. They were com-
ing from opposite directions, and when
they drew level, although neither had
seen the other before, they involun-
tarily nodded and grinned and ex-
changed a "Cheerio."

You can witness similar incidents on
any of London's boulevards, writes
"Young Sub." The great unofficial
Brotherhood of the Hobbler has no rule
beyond that of camaraderie; the only
qualification for membership is the
possession of a hobble caused by mili-
tary service.

"I am convinced that everyone will
realize the vital importance of con-
tinuing in peace that great comradeship
which has enabled us to win the
war," says Sir Douglas Haig. There
are associations and clubs and federa-
tions of all sorts whose objects are to
bind together the men who have
served their country. But the biggest
of all is the one that has no organizing
secretary, no central offices and no
propaganda. It simply exists in the
hearts of the men who have suffered
in the fight for freedom and justice.

HAIL "PUNKIN," KING OF PIES

Who That Has Ever Tasted the Real
Article Can Forget the Thrill
of the First Mouthful!

You can't spell punkin pie with an
"m" and a "p." Pumpkin pie is the
kind one gets in restaurants, favored
with cloves and allspice. "Punkin" pie
has cinnamon and ginger in it, and
sometimes a hint of an unmention-
able ready fluid about which one
would not dare ask mother. And of
all the smacking, ambrosial delicacies
catalogued under the genus "pie" the
best is "punkin."

One grows hungry at the thought of
"punkin" pie—the crisp, crinkly crust;
the thick, rich, pungent filling, with
the dust of cinnamon tantalizing its tawny
top; the creamy, dreamy, velvety, far-
away taste as one's mouth closes on
its prize. Some appetizing joys there
are, but none that exceeds capturing
a piece of "punkin" pie, getting it into
one's hands, contrary to all social
usage, biting into it until one almost
mires up to one's nose, until one can
scarcely see over the top of the upstand-
ing crust, and beginning the unques-
tioned delight of devouring the first mouth-
ful. To taste it is to love it. Love
it, and it will love you.—Milwaukee
Herald.

The Vicar's Slip.

An exceedingly amiable widow came
to live at Little Radcombe. The vicar,
a bachelor, regarded her with fear and
trembling; she was so very obvious-
ly after him. He cured her, though,
one day by making a fortunate slip.

The dear lady met him in the village,
and at last worked up to the point
where she could talk about herself.

"It is very lonely for me now," she
said. "I have always been used to
having a man about the house, and I
can't get used to the quietness."

"She turned and gazed away to the
distant hills, while her underlip trem-
bled piteously."

The vicar muttered the strongest
word in his vocabulary, and then said
hastily:

"Oh, don't worry, my dear lady—
don't worry! You know the wind is
always tempered to the lorn sham."—

Lost You Don't Know.

We have been informed on good au-
thority that a dental parlor is also a
drawing room and sitting room. When
the people fill the room the dentist fills
their teeth. He fills their teeth with
gold and they fill his hand with sil-
ver. They grind their teeth with fear
and anxiety. He grinds their teeth
with a burr and an emery wheel. They
shriek for assistance and he calls for
assistants. He gives 'em gas and then
charges 'em for it. They ask him to
give them credit for the work he does
himself. He calls the teeth hollow
when it's the owner of them who does
the hollowing. And so on, ad infinitum.

More may be said, but we shall save
it for another time.—Indianapolis Star.

Horrors of Chinese Outlawry.

The city of Anlu, on the Han river,
was the scene of a horrible outrage
by a few disbanded Chinese sol-
diers on January 2, according to the
Central China Post. The hills north
of the town have been infested with
these brigands for some time. A work-
man of Anlu set out to collect some
bills, was captured on the main road
to Chinwan and held for ransom. When
the money demanded failed to arrive,
the outlaw band bound their victim,
covered him with straw and, setting it
afire, burned the man alive. The police
and a few soldiers were sent to the
scene, but the murderers had es-
caped.

Dirigible Launches Airplane.

An unusual aeronautical experiment
was tried recently at Rockaway Beach,
L. I., when an airplane, suspended
from one of the navy's "Blimps," was
released at an elevation of 3,000 feet.
An illustration in the April Popular
Mechanics shows the plane just at the
moment of launching. A cable about
100 feet in length, attached to the di-
rigible, was supplied with a con-
tinuous release which gripped the center
section of the top plane, and which could
be instantly released by the pilot.

C. OF C. DINNER ON JUNE ELEVENTH NEW STEP IN COMMUNITY PROGRESS

Business and Professional Men, Property Owners and Working Men Will Take Part In Meeting For Better City and County.

A "Community Progress" dinner and meeting of representative business men, professional men, property owners, and working men of Newark is being arranged by the Enlarged Chamber of Commerce committee for Monday evening, June 11, at the Masonic Temple. While it is an invitation to all, the purpose of it is to create a better understanding of the need of the betterment and development of Newark and Licking county and surrounding territory. It is intended to make it a popular dinner and meeting and the invitations which went out yesterday are addressed to not only the present membership of the Chamber of Commerce but to many other citizens of the city who are known to be deeply interested in the future of this community. This meeting and dinner is incident to the campaign which is being inaugurated by the Chamber of Commerce committee for an enlarged chamber, in order that it may increase its scope of activities and bring about a better community spirit and understanding. The enlarged committee is arranging for two men of town speakers, one of them of extreme prominence and there will also be addresses by local men. In order to thoroughly popularize the dinner, the price per plate has been fixed at \$1.00 and it will be in fact as to price. The committee desires it to be known that the purpose of the meeting is not to raise funds or secure memberships in the enlarged Chamber of Commerce, but to bring to the attention of the community and the representative men in Newark who believe in organized effort in behalf of the city's growth and advancement, betterment and development of Newark and Licking county and surrounding territory. A great deal of interest is being shown toward this dinner on the part of the farmers of Licking county and the assurance that are given the committee the belief is strong that from 100 to 200 farmers may be present at this meeting, representatives men of Licking county. The committee fully appreciates the fact that in the past many of these invitations that someone might be overlooked, and if such is the case, they desire it understood that it is not intentional and the invitation is extended to everyone who is interested in the growth and development of this community. Tickets may be had in such cases at the office of the Chamber of Commerce.

CARRIED THEORIES INTO WAR

Famous French Commander Made Good Use of Strategic Maneuvers He Had Taught.

Like President Wilson, General Foch was a college professor before the war, according to Howard Wheeler, who tells us in Everybody's that "Foch taught military strategy, to be sure, but he was a teacher, a theorist; and when he became a commander in actual war he did not drop his theories. He practiced them. Many of the leaders under him had been his students. He called upon them to do in the field in the face of a savage, clever enemy, what he had asked them to recite in the academy. One of his staff, Colonel Requin, told laughingly one day how some of these other generals, practical men, were shocked at orders he took to them from Foch. "It was a common experience of mine," he said, "to take an order to a division commander in the very crisis of a fight, directing him to perform at once a well-studied, typical maneuver. The troubled, busy general would take the order, read and reread the clean, careful writing, and then turn to me and exclaim: 'Impossible! Why, that would be hard enough to do in maneuvers, but in battle—Here? Now? My God, it is impossible!'"

The general, of course, would perform the movement, accidentally, under fire. "And," said Colonel Requin, "when he tried it, it worked out. And it was those things that won the battle that won the war."

British Crops Were Large. A preliminary statement giving the estimated total products and yield per acre of the potato and root crops in England and Wales this year has just been issued by the board of agriculture. This shows that the yield of potatoes this year, 6 1/2 tons per acre, is equal to that of last year, and one-third of a ton above the average. The total production amounts to 4 1/2 million tons, by far the largest ever raised. Seeding is a happy, wholesome, worthwhile, outdoor school.

Many Raise Peppermint. Peppermint probably occupies one of the most honorable places on the list of drug plants, for the distillation of oil from its leaves is an important industry to which thousands of acres are devoted, principally in Michigan and New York. Their oils are extracted also from wintergreen, pennyroyal, tansy and a number of other well-known plants. To be suitable the leaves must be dried in a place where there is plenty of air but no dampness, and in the shade for this keeps the bright color. They must be looked over with care that no other leaves are mixed with them and packed in boxes or barrels to be shipped. Bulletin on this subject may be obtained from the superintendent of documents, Washington, D. C., at a cost of 15 cents apiece. Uncle Sam warns us that there are risks in these crops as well as in others, but all enterprises are risks in this uncertain world. There are now \$77,477 they Scouts President Wilson says they constitute the good reasons for the strengthening and support of the Scout movement.

ENGLISH AS WORLD LANGUAGE

Writer Bess Strong Indication of the Supremacy as One Result of the Great War.

All the indications are that the universal language will be English. The formal draft of the treaty of Versailles will be couched in the traditional language of diplomacy, the language of Foch and Clemenceau, but the discussions at Paris and Versailles were in the tongue which President Wilson and most of our peace delegates have best at their disposal. Perhaps it is no compliment to us that the European peace-makers should be in a position to meet us more than half way in the matter of foreign tongues, but the fact is there.

The French language will prosper after the war. In more or less perfect form it will be brought back to America, to Australia, to Canada, to South Africa by soldiers and auxiliary war workers to the number of many tens of thousands. But for every Anglo-Saxon whom the war has taught French it is a safe guess that there are a hundred mid-Europeans to whom as a result of the war, emphasizing already existing conditions, the English tongue will be brought close to home. Because the new Czechoslovakia must be in intimate touch with a million Czechs and Slovaks in the United States, because there are several million Poles in this country, because every one of the new nationalities in central Europe looks in the first place to these United States, the American language will be familiar among all foreign languages to these people. For that matter, the numerous commissions and propagandas of mid-Europe which have been busy in the United States will have brought back with them the use, if not the idiom, of our language.—Exchange.

ALL FROM ONE TURKEY EGG

Here's Example of Taking Advantage of Opportunities Which Should Teach Good Lesson.

An old farmer and his son were at work in the field near the roadside when his son discovered a dead turkey, which probably was discarded by another farmer who was on his way to the market. Both were curious to learn the cause of its death. They brought the turkey to the barn, dissected the fowl's body and obtained an egg. The boy set the egg and the result was a fine turkey gobbler that was sold the next summer for \$5. With this money the boy purchased a pig. The next summer the young capitalist sold his sow and eight pigs for \$50. He then bought two thoroughbred heifers.

The ensuing fall he had two milch cows and calves which he sold for \$200. His final investment was in two one-year-old filly colts.

After a lapse of five years the lad was the custodian of two good mares and \$1,000 in gold which he procured in the sale of their colts. And today this farmer's son is studying agriculture and animal husbandry in a state university as the result of one turkey egg.—Thrifty Magazine.

Exploded Theory. The married man concluded to try out his new theory. Addressing his spouse he said: "My dear, I should like to go to Jones' tonight for several hours. Mr. Jones is not ill and does not require any sitting up with. If he did I should let his wife do it. Mr. Jones is perfectly well, so far as I know, except for a certain itching for a poker game. He is notoriously a rotten poker player, and very likely could be nicked for several dollars in the course of the evening. There might be something to drink—he did not specify concerning that. He only said my presence would be appreciated. I am sure that since I have told you the truth about this affair you will consent to my going. Am I right?"

He was not.—Kansas City Star.

THE ADVANTAGE.

The garrulous gentlemen talked and talked—about himself. The only other occupant of the carriage—an elderly gentleman—was bored stiff. But there seemed no remedy. The train was an express. But suddenly with a screeching of brakes the train pulled up at a little out-of-the-way station.

"Hallo! What on earth are we stopping at a station like this for?" asked the old gentleman, who wished to get his journey over.

"To allow me to get out!" said the bore.

"Ah, I see! It has its advantages, then?" said the old gentleman.—London Answers.

Liked Their Suits. Little Bobbie Strindford, who lives at New Augusta, Ind., has, at the age of two and a half years, become a very enthusiastic basketball fan. A few evenings ago the visiting team came into the gymnasium for a little game practice, wearing the customary basketball garb. The color being very fascinating and the cut of the suit looking to Bobbie like something he had seen before, he turned to his mother and said, "I think they got pretty underwear."—Indianapolis Star.

Second-Hand Pianos. London is doing a good business in second-hand pianos, thus saving the labor and materials necessary for further manufacture. At present the demand for pianos comes chiefly from unskilled workers, and people of moderate means are helping to supply it by selling their own instruments.
